(difficult as they lately were and intricate) with at least equal Labour and Pains.

I presume to present your Honours with a little more of my Industry, which has taken up near all my Leisure the last Year.

This Performance fell natural in my way as Matters belonging to Accompts, and I could not help doing what I now Dedicate to your Honours. If I have your Approbation I have my Reward; and remain with the greatest Deference and Respect.

THE PREFACE.

THE usefullness of this Book to the Proprietors of the several transferrable Stocks, I hope will be a sufficient Apology for its Publication; for as they are now become a general Traffick, so their Calculations and Dividends must be an Ease to Persons dealing therein, to those who are expert in casting, as well as those who are not well skill'd: The Former on buying, selling, and the Hurry in transferring may make Mistakes, to such it may serve for a Proof, and to the Latter it will be absolutely necessary.

The P R E F A C E.

The Method taken in the Computation of these Tables is such, that they prove each other, there being an exact Harmony of Numbers through the whole.

That the Buyer may find his Account in a Book of this Consequence; I have taken especial Care to Correct all the Errors of the Press, and to Examine it with the greatest Accuracy and Exactness: If any Book hereafter of this kind shall be publish'd without my Name affix'd at the Bottom of this Preface in my own hand Writing, not printed; I desire all Persons to take Notice that such are spurious, and not to be depended on.

Commission and Brokerage being to be found by the same Method, there is no occasion to add any particular Instances.

Note, That the lowest Fraction in these Tables under a Farthing is $\frac{1}{4}$ and the highest the $\frac{4}{5}$ of a Farthing without any Remainder, their Denominators agreeing through the whole, there will be little trouble in the Addition.
